

Hello Church Family!

In this time of pandemic, we the church have been active and “open” while the church building remained closed. In recent weeks we have begun to open the building as needed to staff, the preschool and some ministries.

Our facilities REMAIN CLOSED except for limited and essential use only. The Opening Well Team is working to finalize a new building use policy for these uncharted times.

We encourage all our ministries, committees, and small groups to continue meeting on Zoom or to meet outdoors at someone’s home while following all CDC, State, and County requirements and recommendations. If you need something from the church office or staff, or if you feel it is essential that you or your ministry do need to be in or on our church premises, then please, call the church office at 410-489-7260.

All groups and ministries must complete our building use form and be approved by our Trustees prior to using our facilities. Our building use form can be found [HERE](#) or you may request that the church office email or mail one to you. As you fill out the form, please explain why it is essential that your group or ministry meet in or on our church premises.

IF you must enter the building please follow these simple formalities:

- If you are not feeling well, please stay home.
- Sign in - book located in the Narthex
- Wear a mask (preferably NO gaiters, bandanas or masks with vents)
- Always keep 6 feet between you and others as best as possible
- Notify the church staff (in confidence) if you have been to the campus and find out you have been exposed or become ill.

Thank you for your understanding and patience, as we do our best to keep our staff, congregation, and preschool, safe during this pandemic.

Peace and Blessings,
Your Opening Well Team
